# Introduction

## About this documentation

### Welcome

Welcome to the **Quick User Guide** for **Instant Result**.

### Legend

A **WARNING** provides critical information that you must treat seriously.

A **CAUTION** provides important information that you must treat with care.

A **NOTE** provides additional information.

## ASD-STE100

The English manual applies the ASD-STE100 specification (Simplified Technical English). Go to <https://www.asd-ste100.org> for more details.

## References

1. User manual of **IRIScan Book**.

Available from our web site: [Product resources](#).

## Software Overview

**Instant Result** is a lightweight software application designed to convert your scanned images into editable text quickly and easily. It uses **Optical Character Recognition (OCR) technology** to extract text from scanned documents, making it simple to edit, copy, or share your content.

**Instant Result** is the ideal companion to the **IRIScan Book portable scanner**. Together, they offer a complete solution for scanning, converting, and managing your documents on the go.

### What is a Scanned Image?

A **scanned image** is a digital image created by scanning a physical document or photo using a scanner. It is usually saved in common image formats such as **.JPG, .PNG, .TIFF, or .BMP**.

Scanned images contain a visual copy of the original content (such as printed text or graphics), but the text is not editable until it is processed with OCR.

# User Interface Overview

User Interface

# Installation

## Software requirements

To ensure the performance of the **I.R.I.S. software Instant Result**, use the following requirements:

<b>Component</b>	<b>Requirement</b>
<b>Computer and processor</b>	Intel® or AMD
<b>Operating system</b>	Microsoft® Windows 11, 10 (64-bit)
<b>Memory</b>	4GB RAM or higher
<b>Available hard drive space</b>	2GB
<b>Other</b>	Internet connection for software download

**The system requirements shown are valid on the publication date of this manual. More recent operating systems may require a software update.**

# Download and Install

You must have administrator rights on your computer to install software.

## Download

To **download** the software

- 1 Go to the [Download Center](#).
- 2 Read the instructions on the screen.
- 3 Select your product.  
Select a scanner from the **IRIScan Book family**.
- 4 Find the Instant Result section.
- 5 Click the **Download** button.

## Install Instant Result

- 1 Double click the **executable installation file** (.exe) to start the Installation Wizard.
- 2 Follow the on-screen instructions to finish the installation.

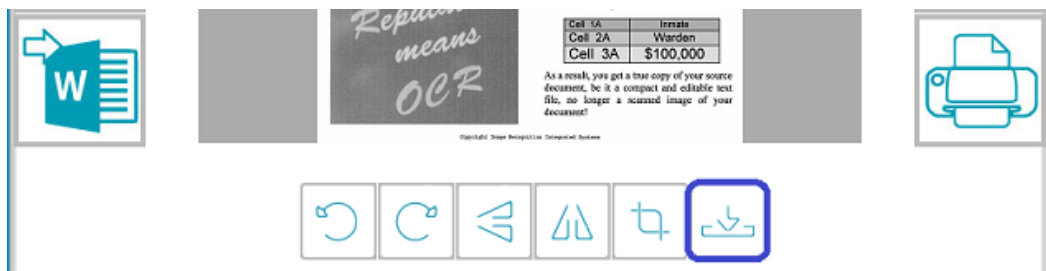

# Operations

## How to import images into Instant Result

You can import scanned images into Instant Result from different sources:

### Option 1: From the IRIScan Book Scanner (as an External Drive)

- 1 **Connect** your **IRIScan Book scanner** to your computer with the USB cable that is provided.
- 2 **Open Instant Result** on your computer.
- 3 Click the **Import** button  (labelled *Download*).

Import/download button in the bottom toolbar.

The file browser dialog opens.

- 4 In the file browser, go to the external drive (IRIScan Book).
- 5 Select the scanned image that you want to import.
- 6 Click **Open**.  
The image opens in the Instant Result interface.

### Option 2: From the MicroSD card

- 1 Remove the **MicroSD card** from your **IRIScan Book scanner**.
- 2 **Insert the MicroSD card** into your computer.  
(You may need to use an adapter).
- 3 **Open Instant Result** on your computer.

- 4 Click the **Import** button  (labelled *Download*).  
The file browser dialog opens.
- 5 In the file browser, go to the MicroSD card folder.
- 6 Select the scanned image that you want to import.
- 7 Click **Open**.  
The image opens in the Instant Result interface.

## Option 3: From a local folder

- 1 **Open Instant Result** on your computer.
- 2 Click the **Import** button  (labelled *Download*).  
The file browser dialog opens.
- 3 In the file browser, go to the folder where your scanned images are saved.  
(*This can be the output folder of any scanner.*)
- 4 Select an image file in one of the following formats:  
.TIF, .TIFF, .JPG, .JPEG, .BMP, PNG, .J2K, or .J2C.

You cannot import multi-page files or PDF files with the **Import** button.

- 5 **Click Open**.  
The image opens in the Instant Result interface.

## How to adjust an image

You can adjust both scanned images and image files saved on your computer.

Use the **Image tools** to make visual changes to the image.

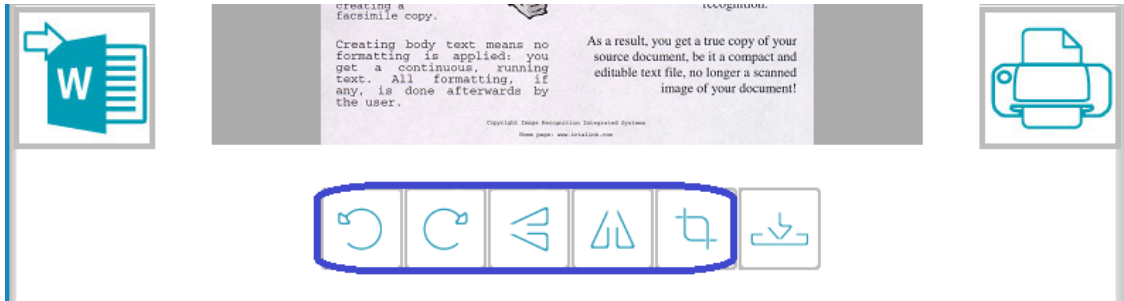

Image tools

You can do the following:

- **Rotate** the image to the left or right.
- **Flip** the image horizontally or vertically.
- **Crop** the image to remove unwanted areas.

These tools do not change the text in the image. They only adjust the image itself.

# How to convert and save scanned images

User Interface

Click to save your scanned image as a .JPG or .BMP image file via the **Save as** dialog. Select the format from the **Save as type** drop down list.

Click to copy both images and recognized text from your scanned image to the clipboard. You can, then, paste them elsewhere.

Click to save your recognized scanned image as a .DOCX, .PDF, .XLSX or .TXT file via the **Save as** dialog. Select the format from the **Save as type** drop down list.

Click to copy only the recognized text from your scanned image to the clipboard. You can, then, paste it elsewhere.

Click to save your recognized scanned image as a .PDF file.

Click to access the Scan and recognition (OCR) **settings**.

Click to save your recognized scanned image as a .DOCX file.

Click to print your scanned image.

**Looking for more advanced document processing?**

Once your documents are saved on your computer, you can enhance, organize, and convert them further using **Readiris PDF**—our powerful PDF and OCR solution.
