

Readiris™ PDF 22

Build: 22.2.726.0

Release date: 2023-04-19

1. New Features

N/A

2. Improvements

- **Update of User guide translations (FR, DE, IT, ES and PT).** The translations of the User guide (web Help) are now aligned with the version in English, i.e. v1.4.
- **The Properties panel:** If you manually hide the Properties panel, it will remain hidden until you click on an object on the page or on another action. You can now scroll through the document while keeping it hidden.
- **Office Ribbon > Protect > Sign:** A tooltip is added on the button **IDs & Certificate**.
- **Search feature:** The search options in the Properties panel displaying the search results remain visible when scrolling through the results.
- **Launching the application:** The loading time of the application at launch is improved.
- **Supported scanners:** More models from different brands are added to the list of supported scanners.

3. Bug fix

- **Scanning with On The Fly Operation leads to an error.**
- **Right-click conversion tool:** It no longer stays open.
- **Tooltips:** tooltips that were showing less than a second are fixed.

We want to hear from you! Let us know what new features or improvements you would like to see in future updates. We greatly value your feedback and hope you take a moment to help us as we grow Readiris PDF. [Feedback form](#).
