

# Readiris™ PDF

## RELEASE NOTES

**Build:** 25.3.30.0 (Win) – 25.3.31.0 (Mac)

**Release Date:** 2026-01-19

## Quick Overview

- **New:** Crop all pages at once
- **New:** Copy movable objects to all pages
- **New:** Import data files to auto-fill PDF forms
- **Improved:** Hyperlink support in Excel output
- **Docs:** Updated English User Guide (v1.5.0.27–28)

## System Requirements

Component	Requirement
<b>Computer and processor</b>	1.5 GHz processor or higher
<b>Memory</b>	4 GB RAM or higher
<b>Available disk space</b>	2 GB or higher
<b>Operating System</b>	1) Windows 10, Windows 11, 64-bit 2) MacOS 13, 14, 15, 26
<b>Other</b>	Internet connection

**The system requirements shown are valid on the publication date of this manual.  
More recent operating systems may require a software update.**

## Hardware requirements

Readiris™ PDF uses all computer resources (CPU and GPU), so the more resources you have, the faster the application will run.

For **compatibility** with scanners, go to the **User Guide > Configure your scanner**.

**Caution:** small form factor PCs or virtual machines may not be compatible.

## New Features

### 1. Crop All Pages

You can now crop all pages in a document at once, saving time when adjusting page margins.

### 2. Copy Movable Objects to All Pages

Easily copy all movable objects—such as added content and PDF elements—to every page in your document with one action.

### 3. Import Data Files to Fill PDF Forms

Import XFDF, FDF, XML, or XFA data files to automatically populate PDF forms, streamlining form completion.

## Improvements

**Improved hyperlink support in Excel exports**, ensuring links are preserved and function correctly in generated spreadsheets.
